

Choose either photo owl, coloring page owl, or a plain sheet of paper. Full size, they are 7.5" x 10" and designed to be printed with a .25" border on each side.

Cut the .25" border off of each side, so that you are left with only the graphic.

Use a paper cutter to ensure straight lines, but of course you can use good old fashioned scissors too.

If you choose to use a plain paper, you can skip this step.
